

**Interwest Consulting Group** is an industry leader in providing municipal services to cities and counties throughout the Western United States. We currently have more than 400 employees specializing in building safety, municipal engineering, information technology, geographic information systems and city planning. We have attracted the best in our professions and are positioned for continued growth and success. Perhaps you could be part of this success?

We are seeking an experienced and motivated Associate or Senior Level Licensed Civil or Structural Engineer with a minimum of three (3) years' experience to provide plan review services for a unique fast paced university campus project. This four-year project offers an exceptional opportunity to become a key member of our highly qualified, collaborative and motivated plan review team.

**Job Responsibilities:** As a member of our team you will be a part of the diversity and depth of experience allowing us to tackle virtually any size or type of project with both speed of delivery and technical excellence. As a Plan Check Engineer, you will be responsible for providing quality assurance plan review services verifying compliance with City, State and Federal Codes and Requirements. You will ensure project deadlines are met with the utmost standards that are Interwest.

**Duties:**

- Check construction documents for compliance with the California Building Standards Code Especially Life-Safety and Structural Provisions
- Coordinate with professionals of other disciplines to ensure all aspects of the project are checked before returning to client/applicant or recommend approval.

**Skills:**

- Strong Building and Residential Code expertise as applied to Commercial, Residential & Industrial projects
  - Must be highly motivated, proactive, and willing to take on new challenges
  - Excellent communication skills essential for team-based working environment
  - Effective interpersonal skills in working with municipal representatives, clients, designers and contractors to resolve complex technical and delivery issues.
- Demonstration of good understanding and experience in project delivery methods

**Education:**

- Bachelor of Science in Civil Engineering or related fields Preferred.
- Minimum 3-5 years plan check experience desirable.
- Registration as a Professional Engineer highly desirable.
- ICC certifications in areas of expertise, or the ability to obtain shortly, are desirable

**Benefits:** Interwest offers highly competitive salaries and a generous benefits package to which include:

- |                                |  |
|--------------------------------|--|
| • Medical Insurance            | • 401(k) Retirement Plan               |
