

Interwest Consulting Group

specializes in providing comprehensive services and professional staffing solutions to municipalities and government agencies, primarily working with and within Building and Safety and Public Works departments. Our Building and Safety services include all levels of staffing for building administration—from building official to front counter support, building and fire plan review, and inspection. We furnish a wide range of Municipal Engineering services such as program management, real estate and right-of-way acquisition services, traffic engineering and transportation programming, construction management, GIS and more. Our business is your business. We understand the processes and procedures required for successful service delivery and recognize that budgets and schedules are not just guidelines, but are to be respected and met.
